## WORK EXPERIENCE

### Senior Technical Architect

*Su Development*

**Jul 2021 – Nov 2024**

*Bellevue, WA*

Led technical design efforts for a 27-story twin-tower high-rise residential project at Yesler Towers in downtown Seattle. Leveraged expertise to refine design and construction methodologies within the Seattle multifamily residential market, particularly focusing on envelope coordination and detailing.

#### Key Project Achievements

- Implemented envelope research for the 27-story twin-tower type 1 multifamily residential project at Yesler Towers in downtown Seattle.
- Implemented meticulous detailing procedures throughout the project lifecycle, ensuring precision and accuracy in design execution to uphold quality standards and project specifications.

### Senior Technical Architect

*GGLO Design*

**Jan 2019 – Apr 2021**

*Seattle, WA*

Responsible for overseeing architectural aspects of various projects including new buildings, design, and interior projects. Specialized in design and construction within the Seattle multifamily residential market, with a focus on envelope coordination and detailing.

#### Key Project Achievements

- Spearheaded envelope research, coordination, and detailing for high-profile multifamily residential projects, notably contributing to the successful advancement of a 27-story waterfront development in Western Avenue in Seattle, WA, and a 15-building residential development in Bayside in San Francisco, CA.
- Facilitated seamless collaboration among project teams, fostering synergies with landscape architects and design engineers to optimize project outcomes and ensure superior design integrity.
- Provided pivotal technical guidance throughout the design and construction phases, optimizing efficiency and ensuring project milestones were met on time and within budget.

### Senior Technical Architect

*LMN Architects*

**Mar 2015 – Nov 2018**

*Seattle, WA*

Led as the Senior Technical Architect on various new building, design, and interior projects, enriching expertise in design and construction with a focus on mixed-use projects. within the Seattle market.

#### Key Project Achievements

- Coordinated exterior egress stairs and metal panel cladding for Lynnwood and 145th Street Sound Transit Stations in collaboration with project design engineers.
- Managed the detailed coordination of the 40-story high-rise apartment building with an eight-story mixed-use podium for the WSCC CoDevelopment Residential Building, Seattle, WA.

## TIMOTHY A. CLARK AIA

Seattle, WA 98178 | (206) 823-4544 | timoclark@gmail.com | <https://www.linkedin.com/in/timclarkarchitect> | [www.timclarkarchitect.com](http://www.timclarkarchitect.com)

- Oversaw the detailed coordination of the exterior envelope, mechanical penthouse, and lobby design detailing for the Summit 3 Office Building, Bellevue, WA; Led extensive materials research and coordination with design engineers and interior designers.
- Oversaw the detailed design development, documentation, and coordination for the Lobby level restaurant for Eighth & Howell Convention Hotel in Seattle, WA; Reviewed and processed RFIs and Shop Drawings, as well as representing the firm at site walks and punch lists during the construction administration phase.

### Freelance

*Maximal Design*

**Sep 2010 – Feb 2015**

*Bangkok, Thailand*

- Engaged in the schematic design phase of a townhouse project in suburban Bangkok.
- Provided advisory services to an international school regarding renovations to their dining facility.
- Established and managed a personal ceramics workshop in Bangkok Thailand and participated in an international ceramics exhibition.
- Studied at a commercial ceramic studio in Seto-Aichi, Japan.
- Founded Maximal Design, a home decor and fashion agency; Designed marketing materials and oversaw the creative direction of the website design.

### Associate

*Martinez & Johnson Architecture*

**Jul 2005 – Dec 2009**

*Washington, DC*

Managed simultaneous new building, design, and interior projects, broadening expertise in design and construction. Delivered on-time and within budget results for multiple historic renovations and mixed-use building projects.

#### Key Project Achievements

- Led the comprehensive gut-renovation of Ford's Theatre Center for Education and Leadership in Washington, DC, integrating museum, retail, and office spaces in a historic 10-story, 30,000 sq ft building.
- Transformed the historic 1880s Pallottine Seminary at Green Hill, West Hyattsville, MD, into residential quarters for the local Diocese.
- Led the construction observation phase for the Colonial Theatre in Pittsfield, Massachusetts, for a US\$14.5 million top-to-bottom renovation.
- Led the team from start to finish for the revitalized Lustine Center in Hyattsville, MD, transforming it from a 1950s car showroom to a dynamic community fitness and arts hub. Preserved its historic significance while enhancing its role as a centerpiece of urban redevelopment.
